

E18, blue

Names in Railworks: vR-DB 118 010-8 / vR-DB 118 Blue DynNum

The class 118 (until 1968 the name was E18) was built in 1935 first. In this days the Class was the fastest loco at the DRG. 53 number of locos were built before 1939 and the last two one after the second world war.

The Class 118 stayed in service until 1984.

With the maximum speed of 150 km/h (later reduced to 140 km/h) the loco was fast enough for long distances and was very popular by the staff.

Important: You can drive the loco only in EXPERT MODE!!

Cab of the Class E18

Here are two pictures with the explanation of the cab. Thus, you can operate the locomotive with the mouse.
